CERTIFICATES

- JavaScript Algorithms and Data Structures (freecodecamp) **2021**
- Mobile Application Development (Nine Complex Co.,Ltd) **2021**
- Introduction to Mobile Development (Meta) **2024**

SUMMARY

I'm a motivated Mobile Developer with 3+ years of experience, primarily in React Native. I began with a 3-month internship, then worked 1 year and 5 months as a Junior Developer at Nine Complex, followed by 1 year as a Mobile Developer at Digital Copilot. Most recently, I worked at Terrafirma company as a Frontend Developer, contributing to mobile and web application projects. I enjoy collaborative environments, continuous learning, and solving real-world problems.

EDUCATION

Bachelor of Electrical Engineering (Technological University Hmawbi, Yangon)

I studied electrical engineering at TU, gaining technical skills and understanding of circuits, information systems, programming languages, and control systems. I overcame academic challenges, participated in extracurricular activities and celebrated achievements.

EMPLOYMENT

Frontend Developer (Remote) (Terrafirma)

11/2024 – 01/2026

At Terrafirma, I worked as a Mobile Developer on a React Native child health and milestone tracking app, implementing key features such as authentication, Babybook management, milestone tracking, health records, growth charts, and immunization tracking. I also contributed to a web-based bacterial results system handling timed testing workflows, pass/fail results, and automated email notifications across OQ, PQ, IQ, and bacterial testing processes.

Mobile Developer (On Site) (Digital Copilot Co., Ltd)

01/2024 – 10/2024

At my role with Digital Copilot, I've developed a comprehensive app that allows mini shops to view inventory, place orders, and track deliveries. I also created a dual-app system for truck drivers and owners to log trips, track expenses, and manage vehicle assignments. And I also worked on an AI-driven app featuring chatbots for general-purpose chatting, language tutoring, vocabulary quizzes and bedtime

story narration. These apps are in the final stages of testing and analytics, and will soon be published.

Junior Mobile Developer (On Site) (Nine Complex Co., Ltd)

08/2022 -12/2023

As a Junior Mobile Developer at Nine Complex for 1.5 years, I contributed to the development of mobile projects using React Native, including the payment app DongFang Pay which is already in production, and the delivery app, which is still in progress. In this role, I worked closely with senior developers, gaining valuable insights and continuously learning from their expertise. Additionally, I spent about 3 months learning Flutter with guidance from a senior developer.

React Native Intern (On Site) (Nine Complex Co., Ltd)

05/2022 - 07/2022

As an intern mobile developer, I received extensive training in React Native, covering the entire project development process. The program culminated in a solo project, where I successfully conceptualized and executed a complete mobile application—during the internship, gaining hands- on experience from start to finish.

PERSONAL PROJECTS

1. **MovieStudio** (RN Cli, Redux toolkit, TMDB api)
2. **Flavor Bite** (expo, supabase, zustand)
3. **Pokemon** (expo, Pokeapi, react-query, zustand)
4. **Music-Player** (expo,zustand, react-native-track-player)
5. **Wordle-Game** (expo,gorhom-bottom-sheet, firebase)
